Join Us for an Exciting Ham Radio and Aviation Communication Event!

Are you interested in exploring the fascinating world of ham radio and aviation communication?
Don't miss out on this unique opportunity!

****What to Expect:****

****Video Demonstrations:**** Watch informative videos discussing the roles of electronics in aviation and discover how these technologies are used in ham radio.

****Morse Code Fun:**** Participate in a hands-on demonstration where you can learn to spell your name in Morse code. Plus, get the chance to operate a Morse code key!

****Radios:**** Experience Software Defined Radios (SDRs) that pick up live conversations from Hagerstown airport tower and approach control. Discover shortwave radio and its applications in long-distance communications. Explore the world of handheld radios (walkie-talkies) and see how they operate in real-world scenarios. Learn about radio navigation in the early days of aviation.

****Information:**** This event is packed with information about ham radio and how you can get involved.

Whether you're a seasoned enthusiast or a curious beginner, there's something for everyone!
Bring your family and friends for a day of learning and fun in the world of ham radio
and aviation communication!
